Tour of Nantucket's Solid Waste Recycling and Compost Facility
Thursday, July 22, 10:45 am

Waste Options of Nantucket has kindly agreed to host a tour for the SSRC of the island's legendary Solid Waste Recycling and Composting Facility. With its "zero waste" approach to solid waste management that includes an island-wide ban on Styrofoam® containers and plastic bags, the Facility has achieved a diversion rate of 92%. In addition, the closed landfill is being "mined" for buried recyclable treasure, bringing its effective diversion to 110%. All non-recycled organics in the MSW stream are composted. For more information, go to www.wasteoptions.com/nantucket.htm.

Depart from 220 Ocean St., Hyannis aboard the [HyLine high-speed Ferry](http://www.hy-linecruises.com/nan/high-speed.html) at 9:10 am, arriving at Nantucket at 10:10. www.hy-linecruises.com/nan/high-speed.html

Bus transportation to and from the facility will be included.

Our tour will begin at 10:45. **Dress is Landfill Casual** (I just made that up). Sandals and high heels are not recommended.

Ferries **depart for the mainland at 1:25, 4:35, 7:20 and 10 pm**. I await confirmation that the group rate applies if we return at different times.

I will make arrangements for **lunch at 1 pm**

Optional bus tour of the island @ \$20/passenger, 2:30-3:45 pm.

If you'd like to go off on your own after lunch, here is a [link to more island information http://www.hy-linecruises.com/nan/index.html](http://www.hy-linecruises.com/nan/index.html)

* * * * *

Name(s) _____ email _____
